Envisioned by Dr. P. Murugesan, PRIST University has come a long way since its humble beginnings in 1994. With its roots in Thanjavur, the institution has now expanded with over 6 campuses all over Tamil Nadu offering a wide range of courses from Engineering, Medicine, Law, Arts to Agriculture. The apple doesn't fall far from the tree and rightfully so. Upon completion of his Masters Degree in Singapore, Nageshwaran his son, joined the University in a secretarial capacity in 2014. During this time, Nagesh instituted several financial reforms to steady the fiscal strength of the University and rehabilitated the management.

In 2016, at a young age of only 26, he was awarded the demanding position of Pro Chancellor, following in his father's footsteps as an Educationalist. Since his induction into the position, the University has witnessed a significant increase in the number of student admissions thanks to his student-friendly policies. He has also pioneered several International partnerships and expansions, note-worthy of which is the University's partnership with a Malaysian University to launch an off-shore medical campus in Chennai. With his visionary outlook and young vigour, Nageshwaran vows to take the University to the next level with several upcoming International partnerships and national expansions.
