REGISTRAR,
 Ponnalyah Ramajayam Institute of
 Science & Technology (PRIST),
 (Institution Deemed to be University
 U/s 3 of the UGC Act, 1956),
 THANJAVUR - 613 403, TAMIL NADU.

1.Introduction:

Examination is considered to be one of the integral elements of the teaching learning process. Examination plays an important role in imparting education and knowledge to students. Examination is an instrument to evaluate the knowledge, understanding and learning of students. For Teachers, Examinations provides feedback to evolve their way of teaching. In the last couple of decades, higher education has witnessed tremendous growth in terms of number of students enrolled, number of courses offered, reach of institutes etc. As a result of this growth the examination system at Universities has becomes quite complex and complicated. One of the major problems faced by a university is to conduct infallible examination and provide tamper proof certificates.

With the passage of the growing development in the world of education across the globe, changes have also occurred in the system and procedure of examinations as well. The main function of education is to develop the students thinking capabilities along with the polishing of the skills, so is the role played by the examination system in sharpening their talents. As the education system is changing rapidly according to the changing needs of the time, therefore there is also a need for strengthening the examination system to cope with the emerging education system.

PRIST, being an institute with the most ambitious visions of transforming into an institution of world class stature in the near future, is committed to incorporate the many value addition for our Academic programmes. In this context, PRIST feels proud in presenting this Examination Automation Manual.

2.COE Module

The COE module deals with examination related information of all the students who are appearing for the semester examination. This module helps in generating the timetable, students list, attendance sheet, hall ticket.

The faculty can enter attendance and marks of the students periodically and also can obtain the final results of the examination. In our university the examination process is automated starting from preparation for exams to publication of results. The system provides facility to select elective papers of student's interest if there is any.

Based on the academic calendar COE office programmer will set the dates for End Semester Exams in the Semester Exam Time Table tab. The timings for the End Semester Exam were fixed by using the same tab. This module helps the student to register the subjects which they are going to appear in the semester examination. In the next stage halltickets for the examinations are generated automatically.

Once the examinations are conducted, attendance details and marks are entered in the software. Based on these inputs the data is processed automatically and the result is generated. This system contains option to enter exam schema for each subject, exam details for each batch with pass percentage. Mark entries are one using their names or register numbers. COE module. The module generates mark sheet automatically with or without photo, consolidated marksheet and provisional certificate once the student completes their course.

REGISTRAR,
Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST),
(Institution Deemed to be University
U/s 3 of the UGC Act. 1956),
THANJAVUR - 613 403, TAMIL NADU.

These marksheet are assigned with a unique serial number for each student which can be automatically assigned through the software. Mark and Grade statements are generated automatically for publication of results. This module has high confidentiality as only authorized users can access the examination software. Mark entry is done by the examiners itself in the centralized valuation process which will be verified and approved by the Camp Officers, so that no alterations can be done. Even if there is any need for modification, it is done with the approval of the Controller of Examinations

OUR EXCLUSIVE PRODUCT

Palpap Erp is a technology-driven business solutions that meet the strategic objectives of our clients. Papap has the 'Centers of Excellence' that create solutions around specific needs of industries. Papap's Insproplus ERP software delivers unmatched business value to customers with 21 Unique Integrated Modules.

InsPro ERP 6.1

Supply and Implementation of Higher Education ERP Version 6.1 (Enterprise Edition)

InsPro SMART 3.3

Contactless Smart Card with Proxing, Photo and Photo Scanning (Student and Staff) Contactless Smart Card Reader

InsPro BIO 6.1

Biometric Fingerprint Device Staff Attendance

InsPro FACE 6.1

Face Recognition Reader for Security and Contactless Student Attendance

InsPro SMS 6.1

CRM System Gateway Integration

InsPro KIOSK 1.0

Supply and Implementation of Higher Education Version 1.0 (Enterprise Edition)
