2. For SWAYAM

One of the course providers for SWAYAM is Spoken Tutorial project launched by IIT-Bombay, which is an educational content portal, wherein one can learn various Free and Open-Source Software all by oneself. These self-paced, multi-lingual courses ensure that anybody with a computer and a desire for learning, can learn from any place, at any time and in a language of their choice. All the content published on this website are shared under the CC BY SA license.

A course on WEKA, being created by Dr. Ashutosh Das of our institution has been approved by spoken tutorial teams for content creation. The email communications in this matter are provided herewith in support of the authorship of this forthcoming course. This can also be verified by spoken tutorial team.

Developing Spoken Tutorial for Weka-reg

PRIST INSTITUTIONAL INNOVATION COUNCIL <scientists.crd@gmail.com>

Dear Madam,

I really appreciate your email with such clarity and understanding.

I agree with you, better I can focus on course outline and your team, who are well experienced in script writing and recording, can do that at your end. This will surely make the process fast and efficient.

May I request you to send a sample course outline, so that I can relate this with available Spoken tutorial, in order to get myself conversant with the content-writing assignment.

Regards,

A. Das

Dear Dr. Das,

Our team has vetted your proposal for Weka. From their comments, I gather they are excited about Weka.

So, let's move on to next steps:

1. You can create the course outline for Weka. Here is the template that you have to use. Kindly make a copy and then begin writing in your copy. Later when it is ready, pls share it with the people marked on this mail.
2. Pls let me know if you are keen to do the actual script writing and recording of these tutorials. If so, you have to follow all our stringent guidelines for creation. Here is the link to the same. Let me warn you - this is a labour-intensive, time-consuming task.
3. Alternatively, you can give the detailed content for each topic and Madhuri from my team can actually create the tutorials. This will be much less labour-intensive than point 2 as Madhuri is one of our star content contributor. This will also speed up the work.
4. In either case, Smita will be the reviewer from our end for the content you create.

Pls let me know if you have any questions or doubts. I will be happy to answer them.

Helping to bridge the Digital Divide

Thanks and rgds,

Nancy Varkey

Respected Sir,

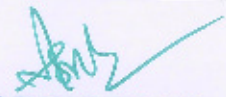

I am writing to request to your esteemed institution for our class XI and XII students, who aspire to clear the exams like NEET and JEE. In this regard, I request you to help our students by providing both self-paced and instructor-led online e-courses, with supporting educational resources and learning aids. Your support can make a real difference in the life of our students.

Expecting a positive reply from your institution.

Thanking you.
