Technology Awareness programme 2018-2019

REPORT

Venue: PRIST Block Seminar Hall

Date: 19.10.2018

Department of Mathematics organized Technology Awareness programme on the "Sage Math" on 19.10.2018. The programme began with the invocation followed by the welcome address by Dr. S. Subramanian, Head of Department of Mathematics.

Dr. N. Senthil Anand, School of Computer Science, SASTRA University Thanjavur was the resource person. He discussed with the students that Sage Math is a free open-source mathematics software system based on the Python programming language. Its features cover many aspects of mathematics, from basic arithmetic and calculus to advanced research mathematics in algebra, combinatorics, numerical mathematics, analysis, and number theory.

Every Student gave good response to this interactive session. The programme ended with the vote of thanks delivered by Dr. R. Abirami, Assistant Professor of Mathematics.

GUEST LECTURE ON RECENT TRENDS IN SRI

About the course:

The System of Rice Intensification involves cultivating rice with as much organic manure as possible, starting with young seedlings planted singly at wider spacing in a square pattern; and with intermittent irrigation that keeps the soil moist but not inundated, and frequent inter cultivation with weeder that actively aerates the soil.

SRI is not a standardised, fixed technological method. It is rather a set of ideas, a methodology for comprehensively managing and conserving resources by changing the way that land, seeds, water, nutrients, and human labour are used to increase productivity from a small but well-tended number of seeds. As Father de Laulanié observed, SRI is an amalgamation of multiple beneficial practices.

Debunking myths

Under SRI paddy fields are not flooded but kept moist during vegetative phase. Later only one inch water is maintained. SRI requires only about half as much water as normally applied in irrigated rice. Over 1,00,000 farmers are experimenting with this system worldwide at present.

SRI Paddy Cultivation requires less water, involves less expenditure and gives more yields. Thus it is beneficial for small and marginal farmers. SRI was first developed in Madagascar during 1980's, its potential is under testing in China, Indonesia, Cambodia, Thailand, Bangladesh, Sri Lanka and India. In Andhra Pradesh, SRI was experimented in all the 22 districts during 2003 Kharif with encouraging results.

SRI encourages rice plant to grow healthy with,

- > Large root volume
- > Profuse and strong tillers - Maximum tillering (30 tillers/plant can be easily achieved; 50 tillers per plant are quite attainable) occurs concurrently with panicle initiation. Under excellent management even 100 fertile tillers per plant or even more can be achieved due to early transplanting and absence of die back of roots.
- > Non lodging
- > Big panicles
- > More and well filled grain panicles and higher grain weight

- Resists insects because it allows rice to absorb soil nutrients naturally

Do's and Don'ts in SRI

1. **Early Transplanting:** Transplant 8-12 day old seedlings, with only two small leaves, (More tillering potential and root growth potential)
2. **Careful Transplanting:** Minimise trauma in transplanting. Remove plant from nursery with the seed, soil and roots carefully and place it in the field without plunging too deep into soil (More tillering potential)
3. **Wide Spacing:** plant single seedlings, not in clumps, and in a square pattern 25cm x 25cm apart or wider. Do not plant in rows. (More root growth potential)
4. **Weeding and Aeration:** use simple mechanical "rotating hoe" that churns up soil; 2 weeding required. (More root growth, due to reduced weed competition, and aeration of soil, giving roots more Oxygen and Nitrogen due to increased microbial activity) Each additional weeding after two rounds results in increased productivity up to 2 t/ha / weeding.
5. **Water Management:** regular water application to keep soil moist but not saturated, with intermittent dryings, alternating aerobic and anaerobic soil conditions (More root growth because it avoids root degeneration, enables better absorption of nutrients from the soil).
6. **Compost / FYM applied instead**

Benefits of SRI

- Higher yields - Both grain and straw
- Reduced duration (by 10 days)
- Lesser chemical inputs
- Less water requirement
- Less chaffy grain %
- Grain weight increased without change in grain size
- Higher head rice recovery
- Withstand cyclonic gales
- Cold tolerance
- Soil health improves through biological activity

Disadvantages

GUEST LECTURE ON RECENT TRENDS IN SSI

About the course:

The Sustainable Sugarcane Initiative (SSI) is an innovative set of agronomic practices that involves using less seeds, raising seeds in a nursery, and following new planting methods, with wider seed spacing, and better water and nutrient management to increase the cane yields significantly.

Challenges to sugarcane millers.

Sugar mills face multiple problems. Sugarcane area is dwindling, leading to under-utilization of crushing machines, from inadequate supplies of canes. Competition from more profitable crops like rice and maize makes it difficult to convince farmers to accept the low price offered by mills. An increase in Jaggery prices is also threatening cane supplies to mills. Due to a high seed rate and insufficient availability of quality seed material, coverage of target areas is difficult. Low sugar recovery, inspite of various efforts has become one of the biggest problems the sugar industry is facing. Another problem is labour scarcity, especially at the time of harvest. And where labour is available, labourers demand high wages. Mechanization is not possible due to the close spacing of seeds in conventional planting.

SUSTAINABLE SUGARCANE INITIATIVE:

SSI methods can increase sugarcane yields by at least 20% with 30% less water and a 25% reduction in chemical inputs.

The SSI method of sugarcane cultivation was evolved from the principles of 'More with Less' followed in SRI (System of Rice Intensification) and introduced in India by the WWF-ICRISAT collaborative project in 2009.

Benefits of SSI to farmers

- > Less seed: Saving in seed material
- > Healthy seedling of 25-35 days old from nursery
- > Wide spacing: Go for inter-cropping
- > Water saving: Easy for drip, 40% less
- > Less cost for transplantation

Adapting to new varieties

SCHOOL OF COMMERCE AND MANAGEMENT

DEPARTMENT OF COMMERCE

AWARENESS PROGRAMME

The School of commerce and management is arranged Department of Commerce health development programmed for the under graduate students on 30.07.2018. The programmed was led by the *Dr.M.Vijay Asst.Professor, Department of management* Soft skill is a term often associated with commerce department. The PRIST deemed to be university -vallam student's welfare in soft skill development aim and process of assigned Problem-solving skills are important in every career at every level. As a result, effective problem solving may also require industry or job-specific technical skills. For example, a registered nurse would need active listening and communication skills when interacting with patients but would also need effective technical knowledge related to diseases and medications. In many cases, a nurse would require to know when to consult a doctor regarding a patient's medical needs as part of the solution

Many instructors design opportunities for students to solve "problems". But are their students solving true problems or merely participating in practice exercises? The former stresses critical thinking and decision making skills whereas the latter requires only the application of previously learned procedures.

SCHOOL OF COMMERCE AND MANAGEMENT
DEPARTMENT OF COMMERCE
AWARENESS PROGRAMME

The School of commerce and management is arranged Department of Commerce health development programmed for the under graduate students on 28.01.2019. The programmed was led by the *Dr.K.PREMA Asst.Professor, Department of management* Soft skill is a term often associated with commerce department. The PRIST deemed to be university - vallaham student's welfare in soft skill development aim and process of assigned Problem-solving skills are important in every career at every level. As a result, effective problem solving may also require industry or job-specific technical skills. For example, a registered nurse would need active listening and communication skills when interacting with patients but would also need effective technical knowledge related to diseases and medications. In many cases, a nurse would require to know when to consult a doctor regarding a patient's medical needs as part of the solution

Many instructors design opportunities for students to solve "problems". But are their students solving true problems or merely participating in practice exercises? The former stresses critical thinking and decision-making skills whereas the latter requires only the application of previously learned procedures.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Guest Lecture for Recent Trends in Technology for IoT

INTRODUCTION:-

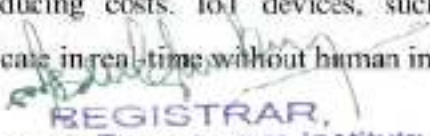

Edge connectivity and 5G are two of the most important trends to watch in the IoT space. Edge computing networks allow for the processing and storage of data closer to its source instead of relying on distant servers. And 5G networks offer higher speeds and lower latency than existing technologies.

Key Takeaway. Another name for IoT is the “Internet of Things.” It can also be referred to as Machine-to-Machine (M2M) communication, Cyber-Physical Systems (CPS), or the Web of Things (WoT). These terms highlight the core idea of IoT, which is connecting various devices and systems to communicate and share data.

OBJECTIVES: -

The main purpose of IoT is to connect any device and object to the internet, allowing them to collect and share information, and to be remotely monitored and controlled.

The main goal of IoT, or Internet of Things, is to connect devices to the internet, allowing them to collect, share, and analyze data. This enables remote monitoring and control, improving efficiency and reducing costs. IoT devices, such as smart thermostats and utility meters, communicate in real-time without human intervention.

REGISTRAR,
Ponnalayah Ramajayam Institute of
Science & Technology (PRIST),
(Institution Deemed to be University
U/s 3 of the UGC Act, 1956),
THANJAVUR – 613 403, TAMIL NADU.

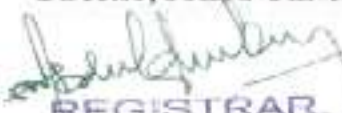

This connectivity helps businesses streamline operations, enhance productivity, and reduce waste. For example, a logistics company can track their trucks and packages in real-time, optimizing delivery routes. In homes, IoT can enhance security by automating lights to deter intruders. Overall, IoT aims to make systems smarter and more efficient.

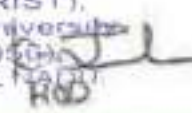

Registration Details:

Registration will be done on first come first serve basis. Number of seats are 50. Registration will be closed once the target participants are reached. The enclosed registration form is to be filled and mailed/emailed (scan copy of registration form along with payment details) to the following communication address:

Guest Lecture for Recent Trends in Technology for Neural Networks

INTRODUCTION:-

A neural network is a method in artificial intelligence that teaches computers to process data in a way that is inspired by the human brain. It is a type of machine learning process, called deep learning, that uses interconnected nodes or neurons in a layered structure that resembles the human brain.

Every neural network consists of layers of nodes, or artificial neurons—an input layer, one or more hidden layers, and an output layer. Each node connects to others, and has its own associated weight and threshold.

OBJECTIVES: -

Neural networks are computing systems with interconnected nodes that work much like neurons in the human brain. Using algorithms, they can recognize hidden patterns and correlations in raw data, cluster and classify it, and – over time – continuously learn and improve.

The goal of the learning is to find such values of the neural network parameters that the actual network outputs would be as close as possible to the desired ones. This approach is usually applied to classification, regression, and system identification problems.

8 types of neural networks

- Convolutional neural networks. ...
- Recurrent neural networks. ...
- Radial basis functions networks. ...
- Long short-term memory networks. ...

THANJAVUR – 613 403, TAMIL NADU.

- Multilayer perceptrons. ...
- Generative adversarial networks. ...
- Deep belief networks.
- Self-organising maps.

They receive input signals, process them using activation functions and produce output signals. These artificial neurons are interconnected in layers to form a network. The first layer, called the input layer, receives the initial data, while the last layer, known as the output layer, produces the end result.

Registration Details:

Registration will be done on first come first serve basis. Number of seats are 50. Registration will be closed once the target participants are reached. The enclosed registration form is to be filled and mailed/mailed (scan copy of registration form along with payment details) to the following communication address:

Programme Report

The Biotechnology Department organized **Awareness of Trends in Technology Programme** for biotechnology students, there are totally 42 students, along with staff members from several departments. The greeting speech delivered by **Dr. Dr. G. Rajendran**, Assistant professor Department of Biotechnology, PRIST University. **Dr. K. Saravanan**, Dean, School of Arts and Science, PRIST Deemed to be University, Vallam, Thanjavur, delivered the presidential speech. Resource: **Dr. S. Manikandan**, Assistant Professor, Department of Chemistry of PRIST Deemed to be University's school of education at Vallam, Thanjavur. The event was beneficial to the students and given the in-depth discussions between the students and resource persons, it exposed the staff to skill development and capacity development for their future prospect. **Dr. J. Ilamathi**, Assistant Professor, Department of Biotechnology, PRIST Deemed to be University, Vallam, Thanjavur, finally offered a vote of gratitude.

Resource person profile

She is Revathy.P from south India. He like to work with team for sharing knowledge and getting the best output from others. He developed my own framework without any dependencies. And he developed python, java, web based database, c/c++ based on client requirement. supports in mobile applications. and He worked on cloud platforms like gcp, aws, heroku, linux package installations, git, jira, etc...

Her best thing is he love this industry. that's it Companies which he worked various software companies and working GR Soft Technology. Huge IT experiences in Macon System Technologies and Image Creative Education

Report For one day seminars on Human Performance, Situation and Automation

Department of Computer Science, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized a one-day Guest Lecture on "Data Science Technologies" on October 16, 2023 in EDC seminar hall, CRD. The seminar focused on AI/ML and its Industrial Applications.

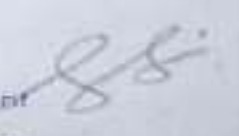

The dignitaries on the dais were Dr. T.V. CHRISTY, M.E., Ph.D., Vice-Chancellor, PRIST University, Dr. L. CHINNAPPA, Ph.D., Dean, School of Arts and Science, Mr. G. KARTHIKEYAN, Head, Quantumsys Technologies Thanjavar, Ltd, Prof.S. AMARESAN, Head, Department of Computer Science, Ponnaiyah Ramajayam Institute of Science and Technology

The programme started at 11:30 am with the welcome address by Mrs. M. AARTHI, Ph.D., Assistant Professor, Department of Computer Science. Dr. L. CHINNAPPA, Ph.D., Dean, School of Arts and Science delivered an Inaugural address about the seminar. Dr. T.V. CHRISTY, M.E., Ph.D., Vice-Chancellor, PRIST University delivered the Felicitation about the conference.

Finally Mrs.K.priyadhashini, Assistant Professor, Department of Computer Science delivered vote of thanks.

Technology Awareness programme 2019-2020

DESMOS TOOL REPORT

Venue: PRIST Block Seminar Hall

Date: 10.03.2020

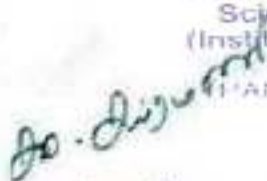

Department of Mathematics organized Technology Awareness programme on the "DESMOS TOOL" on 10.03.2020. The programme began with the invocation followed by the welcome address by Dr.S.Subramaniam Head of Department of Mathematics

Mr.G. Balasubramanian, Assistant Professor, Naina Mohamed College of Arts & Science was the resource person. He discussed with the students that Desmos tool is great for teaching about graphs. They offer a free graphing calculator that can be used by students all over the world for free. It is even accessible for visually impaired students.

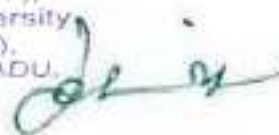

Every Student gave good response to this interactive session. The programme ended with the vote of thanks delivered by Dr. P. Padma, Assistant professor of Mathematics.

Advance learning of SPSS

REPORT

Venue: PRIST Block Seminar Hall

Date: 09.10.2019

Department of Mathematics organized Technology Awareness programme on the "Advance learning of SPSS" on 09.10.2019. The programme began with the invocation followed by the welcome address by Dr. S. Subramaniam Head of Department of Mathematics

Dr. Lavanya, Assistant Professor, Anna Velakanni College of Arts and Science was the resource person. She discussed with the students that SPSS is a widely used program for statistical analysis in Social science and places constraints on internal file structure, data types, data processing and matching files which together considerably simplify programming.

Every Student gave good response to this interesting session. The programme ended with the vote of thanks delivered by Dr. K. Selvam Assistant Professor of Mathematics.

GUEST LECTURE ON RECENT TRENDS IN AZOLLA CULTIVATION.

About the course:

Azolla prefers shade and requires light (30-50% light required for its growth) for photosynthesis. Azolla is a water based crop; one should ensure at least 5 inches of water in pond for proper growth. Azolla grows well where the ideal temperature range is 20-35°C. It requires a water pH value of 5 to 7 and relative humidity of 80-90%.

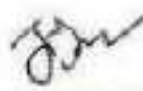

STEPS IN AZOLLA CULTIVATION

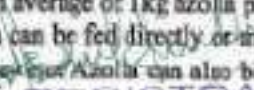

Size of the tank depends quantity of feed to be harvested. For small holders a pond of about 2m length and 1m width is sufficient. The ground is levelled and bricks are laid in required dimension.

- 2) Old plastic sacs or sheets are placed in the bottom of the pond
- 3) Then the pond is covered with 150 gauge durable plastic sheets
- 4) Secure sides of the plastic sheets by placing bricks over the side walls
- 5) About 25 kg of clean and fertile soil is spread uniformly across the pond
- 6) Then, a mixture of 5 kg cowdung and 30g rjphos/musoorie phos is applied uniformly
- 7) Water is maintained at a depth of 10 cm in the pond
- 8) 500g of azolla culture is required per square meter of the pond
- 9) Azolla will fully cover the pond by 1-2 weeks and can start harvesting it.

Harvesting of Azolla.

Azolla will be ready for harvest by 2-3 weeks. Plastic sieves can be used for harvesting. One can obtain an average of 1kg azolla per day from a pond of above mentioned dimensions. Harvested azolla can be fed directly or mixed with nutrients and fed to livestock like cattle, sheep, goat, poultry etc. Azolla can also be fed in dry forms. The leaves are to be cleaned with fresh water before feeding.

THANJAVUR - 613 403, TAMIL NADU.

Maintenance of azolla.

- Apply 1kg cow dung and 10-20g rajphos once in 2 weeks
- Remove one fourth of water from the pond and refill it with fresh water once in 2 weeks
- Remove the soil and add 5 kg fresh soil to the pond
- The pond should be emptied once in 6 months and cultivation of azolla is restarted with fresh culture and soil.

Care to be taken

- Maintenance of pure culture free from contamination is essential for good yield.
- Azolla should be harvested regularly to avoid overcrowding.

GUEST LECTURE ON RECENT TRENDS IN MICRO GREENS

About the course:

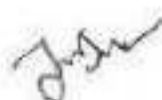

Microgreens are young, tender, edible crops that are harvested as seedlings. These tiny plants are grown to the first true leaf stage. They should not be confused with sprouts, which are germinated seeds lacking true leaves. Microgreens are sold as a raw product for use in salads, on sandwiches, and as a garnish.

Micro green cultivation:

- Microgreens are young vegetable greens that are approximately 1-3 inches (2.5-7.5 cm) tall. They have an aromatic flavor and concentrated nutrient content and come in a variety of colors and textures.
- Microgreens are considered baby plants, falling somewhere between a sprout and baby green.
- That said, they shouldn't be confused with sprouts, which do not have leaves. Sprouts also have a much shorter growing cycle of 2-7 days, whereas microgreens are usually harvested 7-21 days after germination, once the plant's first true leaves have emerged.
- Microgreens are more similar to baby greens in that only their stems and leaves are considered edible. However, unlike baby greens, they are much smaller in size and can be sold before being harvested.
- Microgreens are young vegetable greens that fall somewhere between sprouts and baby leaf vegetables. They have an intense aromatic flavor and concentrated nutrient content and come in a variety of colors and textures.

SCHOOL OF COMMERCE AND MANAGEMENT

DEPARTMENT OF COMMERCE

AWARENESS PROGRAMME

The School of commerce and management is arranged Department of Commerce health development programmed for the under graduate students on 18.06.2019. The programmed was led by the DR.KG SELVAM, DEAN - *Department of management*. Soft skill is a term often associated with commerce department. The PRIST deemed to be university -vallam student's welfare in soft skill development aim and process of assigned Problem-solving skills are important in every career at every level. As a result, effective problem solving may also require industry or job-specific technical skills. For example, a registered nurse would need active listening and communication skills when interacting with patients but would also need effective technical knowledge related to diseases and medications. In many cases, a nurse would require to know when to consult a doctor regarding a patient's medical needs as part of the solution.

Many instructors design opportunities for students to solve "problems". But are their students solving true problems or merely participating in practice exercises? The former stresses critical thinking and decision making skills whereas the latter requires only the application of previously learned procedures.

DEPARTMENT OF COMMERCE

AWARENESS PROGRAMME

The School of commerce and management is arranged Department of Commerce health development programmed for the under graduate students on 20.01.2020

The programmed was led by the DR.T.JAYASHOLAN, Asst. Professor, Department of management Soft skill is a term often associated with commerce department. The PRIST deemed to be university - vallah student's welfare in soft skill development aim and process of assigned Problem-solving skills are important in every career at every level. As a result, effective problem solving may also require industry or job-specific technical skills. For example, a registered nurse would need active listening and communication skills when interacting with patients but would also need effective technical knowledge related to diseases and medications. In many cases, a nurse would require to know when to consult a doctor regarding a patient's medical needs as part of the solution

Many instructors design opportunities for students to solve "problems". But are their students solving true problems or simply participating in practice exercises? The former stresses critical thinking and decision making skills whereas the latter requires only the application of previously learned procedures.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

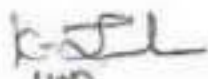

ABOUT BLOCK CHAIN TECHNOLOGY

Blockchain technology is an advanced database mechanism that allows transparent information sharing within a business network. A blockchain database stores data in blocks that are linked together in a chain.

A blockchain is “a distributed database that maintains a continuously growing list of ordered records, called blocks.” These blocks “are linked using cryptography. Each block contains a cryptographic hash of the previous block, a timestamp, and transaction data.

Blockchain is a type of shared database that differs from a typical database in the way it stores information; blockchains store data in blocks linked together via cryptography. Different types of information can be stored on a blockchain, but the most common use for transactions has been as a ledger.

Internet of money (cryptocurrencies) - Phase 1 • Internet of assets (Value registry) - Phase 2 • Internet of Entities (Value ecosystem) - Phase 3 • Value web = Interoperable blockchains 1 + 2 + 3 Page 19 • Value can be transferred between different types of blockchains. Devs are now working on the interoperable ledgers.

ABOUT PYTHON WITH DATA SCIENCE

Python is a general-purpose, object-oriented programming language that's popular in data science thanks to its rich libraries offering deep learning capabilities.

- NumPy. NumPy is a powerful Python framework that provides high-performance multidimensional array support. ...
- Pattern. Among the various Python frameworks available, Pattern is particularly well-suited for Data Science tasks. ...
- Scikit-Learn. ...
- Keras. ...
- Shogun. ...
- Chainer. ...
- SciPy. ...
- Dask.

Python has become an essential tool for data analysis and data science due to its simplicity, versatility, scalability, and vast range of libraries and frameworks. Python has also become a popular choice for many businesses and organizations that need to process and analyze large amounts of data.

AWARENESS OF TRENDS IN TECHNOLOGY PROGRAMME

Programme Report

The Biotechnology Department hosted an Awareness of Trends in Technology Programme for 51 students in total, along with staff members from several departments. The greeting speech delivered by Dr. A. Bakrudeen Ali Ahamed, Professor, CRD, Biochemistry Department of PRIST University. Dr. L. Chinnappa, professor and dean of PRIST Deemed to be University, Vallam, Thanjavur, delivered the presidential speech. Resource Dr. S. Amaresan, HOD, Department of Computer Science, School of Arts and Science. The event was beneficial to the students and given the in-depth discussions between the students and resource persons, it exposed the staff to skill development and capacity development for their future prospect. Dr. R. Arunkumar, Assistant Professor, Department of Biotechnology, PRIST Deemed to be University, Vallam, Thanjavur, finally offered a vote of gratitude.

Report For One-Day programme on Database And Network Maintenance

Department of Computer Science, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized a one-day seminar on "Recent Trends in IT" on August 09, 2013 in EDC seminar hall, CRD. The seminar focused on Algae and its Industrial Applications.

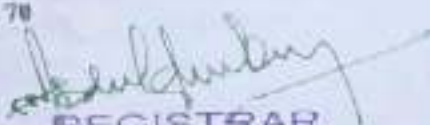

The dignitaries on the dais were Dr. T.V. CHRISTY, M.E., Ph.D, Vice-Chancellor, PRIST University, Dr.L.CHINNAPPA, Ph.D., Dean, School of Arts and Science, **Mr.S.SENTHIL MURUGAN** Team Leader, Mahindra Info-tech, Chennai Prof.SAMARESAN, Head, Department of Computer Science, Ponnaiyah Ramajayam Institute of Science and Technology.

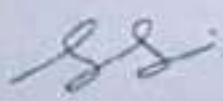

The programme started at 11:30 am with the welcome address by Mrs. M. AARTHI, Ph.D., Assistant Professor, Department of Computer Science. Dr.L.CHINNAPPA, Ph.D., Dean, School of Arts and Science delivered an Inaugural address about the seminar. Dr.T.V.CHRISTY, M.E., Ph.D, Vice-Chancellor, PRIST University delivered the Felicitation about the conference.

Finally Mr.K.Vijayabaskar, Assistant Professor, Department of Computer Science delivered vote of thanks.

Report on Awareness of Recent Trends and Technology in Software Development

On January 20, 2020, the Computer Science Department of PRIST Deemed to be University organized an online seminar via Microsoft Teams titled "Awareness of Recent Trends and Technology in Software Development." The event aimed to inform students and faculty about the latest advancements and emerging trends in the field of software development.

The seminar began with an introduction to the evolving landscape of software engineering, emphasizing the rapid pace of technological innovation. Key topics included the growing importance of DevOps practices, which streamline the software development lifecycle through continuous integration and continuous deployment (CI/CD) methodologies. The integration of Artificial Intelligence (AI) and Machine Learning (ML) in software systems was highlighted, showing how these technologies are revolutionizing areas such as predictive analytics, automation, and decision-making processes.

Another significant trend discussed was the rise of microservices architecture, which allows developers to build scalable and maintainable applications by breaking them down into smaller, independent services. The speakers also touched on cloud computing's role in modern software development, particularly the benefits of using cloud platforms for flexible and cost-effective solutions.

Participants were also introduced to new programming languages and frameworks that are gaining popularity, such as Rust, Go, and Flutter, which address various challenges in security, performance, and cross-platform development.

INTERENT OF THINGS

What is the Internet of Things?

The Internet of Things, or IoT, refers to the billions of physical devices around the world that are now connected to the internet, all collecting and sharing data. Thanks to the arrival of super-cheap computer chips and the ubiquity of wireless networks, it's possible to turn anything, from something as small as a pill to something as big as an airplane, into a part of the IoT. Connecting up all these different objects and adding sensors to them adds a level of digital intelligence to devices that would be otherwise dumb, enabling them to communicate real-time data without

involving a human being. The Internet of Things is making the fabric of the world around us smarter and more responsive, merging the digital and physical universes.

What are the benefits of the Internet of Things for business?

The benefits of the IoT for business depend on the particular implementation; agility and efficiency are usually top considerations. The idea is that enterprises should have access to more data about their own products and their own internal systems, and a greater ability to make changes as a result.

REGISTRAR,
Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST),
(Institution Deemed to be University
U/s 3 of the UGC Act, 1956),
THANJAVUR - 613 103, TAMIL NADU.

COURSE OUTLINE

REGISTRAR,
Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST),
(Institution Deemed to be University
U/s 3 of the UGC Act, 1956),
THANJAVUR - 613 103, TAMIL NADU.

The course implements the students with a theoretical systematic professional knowledge and also strong practical skills. The subjects in Internet of Things are:

- Internet of Things
- Cloud Computing
- Software Development
- Statistical Data Analysis
- Dissertation

Objective of the Course:

This Course focuses on hands-on IoT concepts such as sensing, actuation and communication. It covers the development of Internet of Things (IoT) prototypes—including devices for sensing, actuation, processing, and communication—to help you develop skills and experiences. The Internet of Things (IoT) is the next wave, world is going to witness. Today we live in an era of connected devices the future is of connected things. Learning Outcome:

REGISTRAR,
Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST),
(Institution Deemed to be University
U/s 3 of the UGC Act, 1956),
THANJAVUR - 613 403, TAMIL NADU.

After the completion of the course, the students will be able design some IoT based prototype.

Learning Outcome:

After the completion of the course, the students will be able design some IoT based prototypes.

Detailed Course Syllabus:

1. Introduction to IOT: Understanding IoT Fundamentals
 - IOT Architecture and protocols
 - Various Platforms for IoT
 - Real time Examples of IoT
 - Overview of IoT components and IoT Communication Technologies
 - Challenges in IOT
2. Arduino Simulation Environment: Arduino Uno Architecture
 - Setup the IDE, Writing Arduino Software
 - Arduino Libraries
 - Basics of Embedded C programming for Arduino
 - Interfacing LED, push button and buzzer with Arduino
 - Interfacing Arduino with LCD

REPORT

ONE DAY SEMINAR ON “APPLIED BIOLOGY”

DATE 04 MAY 2022

The Department of Life Science- Biochemistry, Biotechnology and Microbiology had organised one day Seminar on Applied Biology on 04th May 2022. Welcome address Dr. A. Bakradden Ali Ahmed Professor, Department of Biochemistry, Presidential address Dr. T. V. Christy Vice – Chancellor, Inaugural address given by Dr. L. Chinnappa Dean, School of Arts and Science, PRIST University respectively. Introduction to Chief Guests given by Dr. S. Ambiga, Associate Professor, Department of Biochemistry, PRIST University. Lecturer given by the resource persons were Dr. R. Sukirtha Research Director, Ashwanth Diagnostics and Research Centre, Madurai, Title: Nanovesicles: The Key Biomarkers For Cancer Stem Cells Niche, Dr. Arul Selvam Managing Director, Seigen Research & Innovation PVT Ltd., Thanjavur, Title: Cell Lines and It's Applications, Dr. J. Sebastianraj Associate Professor & Head Department of Biotechnolog, Jamal Mohamed College, Tiruchirappalli, Title: Environmental Vision – 2022, Dr. Manjula Kesavan Managing Director, Bio Techno Solutions, Tiruchirappalli, Title: Natural Herbal Remedies for Periodontitis Diseases Prevalence among the Type 2 Diabetes Mellites. Vote of Thanks Dr. J. Ilamathi, Assistant Professor, Department of Biotechnology, PRIST University, Vallam, Thanjavur, Tamil Nadu. Total participated members 190 among that 16 Faculty members from the Department of biochemistry, Biotechnology and Microbiology, 194 students were participated in this events. Invited speakers are enlighten the students regarding above topics. Students were asked so many questions and get clarification from the resource persons. The lecture was very useful for students and it was highly appreciated by all students and faculty.

RECENT TRENDS IN SMART GRID

PONNAIYAH RAMAJAYAM INSTITUTE OF SCIENCE & TECHNOLOGY

PRIST UNIVERSITY

Vallam, Thanjavur.

Date: 06.02.2021

Sir,
Sub: Two days' workshop conducted by Department of Electrical and Electronics Engineering.

I have the honour to invite your kind attention to participate two days' workshop in the title of "Recent Trends in Smart Grid" scheduled on 15.03.2021 & 16.03.2021.
All are invited to participate and provide your support.

Thanking you.

With regards

About the Course

The rapidly increasing energy needs of our nation and the ever-growing generation demand gap necessitate the introduction of new technology in power sector. Researchers from both industry and institutions have been working on the problem for a long period and are able to devise feasible solutions.

In power grid, the traditional fossil fuels are facing the problem of depletion and the decarbonization demands the power system to reduce the carbon emission. Although the rising awareness of sustainable development have become the impetus to the utilization of renewable energy sources, the intermittent characteristics of wind and photovoltaic sources bring huge challenges to the power system operation in a low inertia power system.

The Smart Grid represents an unprecedented opportunity to move the energy industry into a new era of reliability, availability, and efficiency that will contribute to our economic and environmental health. During the transition period, it will be critical to carry out testing, technology improvements, consumer education, development of standards and regulations, and information sharing between projects to ensure that the benefits we envision from the Smart Grid become a reality. The benefits associated with the Smart Grid include:

- More efficient transmission of electricity
- Quicker restoration of electricity after power disturbances
- Reduced operations and management costs for utilities, and ultimately lower power costs for consumers
- Reduced peak demand, which will also help lower electricity rates
- Increased integration of large scale renewable energy systems
- Better integration of customer-owned power generation systems, including renewable energy systems
- Improved security

It is earnestly hoped that such a forum will enhance the knowledge and perspective of both students and research scholars in the area of power systems while providing great opportunities for collaborative research.

On each topic, there will be presentations on the progress and concepts involved as well as case studies, followed by practical sessions demonstrating the exposure of the participants to the state-of-the-art on the renewable energy technologies.

About PRIST University

Ponnaiyah Ramajayam Institute of Science and Technology is a university recognized by U/S 3 of UGC Act, 1956. It is situated at 42 km from Tiruchirappalli and 15 km from Thanjavur, along the National Highway 67. Accredited by NAAC, the university spreads over five campuses establishing the academic excellence and deliverance to the society in the form of Graduates, Post Graduates and professionals.

Under the able guidance of its founder and Chancellor Prof. P. Murugesan, the university is poised to establish academic excellence with quality education. It is situated in temple city, Thanjavur, the pinnacle of glorious Chola dynasty vis-a-vis fast developing smart city and yet agrarian set-up, the university offers a classical blend of technology, culture and ethics.

Department of Electrical and Electronics Engineering

The department of Electrical and Electronics of PRIST UNIVERSITY was established in 2008. Since then its excellence in each and every aspects has played an important role in the institute. The department received university status under section 3 of UGC Act 1956.

The EEE Department is dedicated to delivering competent electrical engineers to the arena of the real world. They are outfitted with core technical knowledge as well as professional skills necessary to form the backbone of the future. The committee

modern and sophisticated equipment at both Undergraduate (UG) and Postgraduate (PG) levels to provide quality education with practical knowledge.

Boarding and Lodging Facilities

Workshop series is Vallam, Thanjavur, PRIST University. There are limited student hostel rooms available for both male and female.

Registration fees

Registration fee - Rs 500.00

Registration fee includes refreshment and lunch, a kit, a course material and a certificate.

Eligibility

Research scholars (Full Time / Part Time), UG/PG students of various engineering/science discipline, faculty members pursuing (or) interested in pursuing doctoral research.

Registration Details:

Registration will be done on first come first serve basis.

Number of seats are 50. Registration will be closed once the target participants are reached.

The enclosed registration form is to be filled and mailed/emailed (scan copy of registration form along with payment details) to the following communication address:

Director, PRIST University, Vallam, Thanjavur-613403, Tamil Nadu, India

REGISTRAR,
Ponnaiyah Ramajayam Institute of Science & Technology (PRIST)
(Institution Deemed to be University
as per U/S 3 of UGC Act, 1956).
Power Viceroy Road, Tiruchirappalli-613 403, TAMIL NADU.

Chief Patron:

Date: 10.09.2021

Sir,

Sub: Two days' workshop conducted by Department of Electrical and Electronics Engineering.

I have the honour to invite your kind attention to participate two days' workshop in the title of "Recent Trends in Smart Grid" scheduled on 23.09.2021 & 24.09.2021.

All are invited to participate and provide your support.

Thanking you,

With Regards

HEAD of the DEPARTMENT

Head of the Department
Electrical and Electronics Engineering
Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST)
(Institution Deemed to be University
U/s 3 of the UGC Act, 1956)

Two day National Workshop cum hands-on training program on

Recent Trends in Smart Grid Technology

(23rd & 24th FEBRUARY, 2021)

Organized by

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING PRIST

University,
Vallam, Thanjavur

Email: ees.prist@gmail.com

About the Course

The rapidly increasing energy needs of our nation and the ever-growing generation demand gap necessitate the introduction of new technologies in power sector. Researchers from both industry and institutions have been working on the problem for a long time and are able to devise feasible solutions.

In power grid, the traditional fossil fuels are facing the problem of depletion and the decarbonization demands the power system to reduce the carbon emission. Although the rising awareness of sustainable development have become the impetus to the utilization of renewable energy sources, the intermittent characteristics of wind and photovoltaic energies bring huge challenges to the safe and stable operation in a low inertia environment.

REGISTRAR,

Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST),
(Institution Deemed to be University
U/S 3 of the UGC Act, 1956),
THANJAVUR-613 403, TAMIL NADU.

The Smart Grid represents an unprecedented opportunity to move the energy industry into a new era of reliability, availability, and efficiency that will contribute to our economic and environmental health. During the transition period, it will be critical to carry out testing, technology improvements, consumer education, development of standards and regulations, and information sharing between projects to ensure that the benefits we envision from the Smart Grid become a reality. The benefits associated with the Smart Grid include:

- More efficient transmission of electricity
- Quicker restoration of electricity after power outages
- Reduced operations and management costs for utilities, and ultimately lower power costs for consumers
- Reduced peak demand, which will also help lower electricity rates
- Increased integration of large-scale renewable energy systems
- Better integration of customer-owned power generation systems, including renewable energy systems
- Improved security

It is earnestly hoped that such a forum will enhance the knowledge and perspective of both students and research scholars in the area of power systems while providing great opportunities for collaborative research.

On each topic, there will be presentations on the principles and concepts involved as well as case studies, quizzes, followed by practical sessions demonstrating the prowess of the participants to fortify their experience on the renewable energy system with software tools.

REGISTRAR,
Department of Electrical Engineering,
Ponnaiyah Ramajayam Institute of
Science & Technology (PRIST),
Vallam, Thanjavur-613 403.

Awareness of Trends in Technology Industrial IoT and Automation

Dr. D. Vincent Herald Wilson explained all the processes that were involved in "Industrial IoT and Automation". The processes involved industrial internet of things (IIoT) is the use of smart sensors, actuators and other devices, such as radio frequency identification tags, to enhance manufacturing and industrial processes. These devices are networked together to provide data collection, exchange and analysis. Insights gained from this process aid in more efficiency and reliability. Also known as the industrial internet, IIoT is used in many industries, including manufacturing, energy management, utilities, oil and gas.

- ✓ Connected devices that can sense, communicate and store information about themselves.
- ✓ Public and private data communications infrastructure.
- ✓ Analytics and applications that generate business information from raw data.
- ✓ Storage for the data that's generated by the IIoT devices.

CONCLUSION : The lecture was of great success. It helps students to know about something new and prepare themselves for something innovative & new. The lecture came to an end of thanks by the professor

Sample Feedback Responses from the participants.

The objective of the trends in technology was achieved. The overall session discussion benefitted the Students. This Awareness of trends in technology would help the participants to Industrial IoT and Automation in an effective way and also it would help them to do their implementation in research work.

S. No.	Name of the participant	Department	College Name	Age	Gender	Year of Study	Overall Rating	Feedback	Comments	Future comments or suggestions

Awareness of Trends in Product Design Development and Modeling

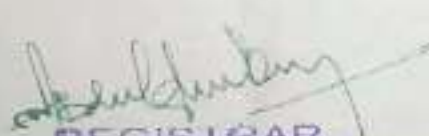

Dr.MManickam explained all the processes that were involved in "Product Design Development and Modeling". Product modeling is an amalgamation of science, geometry, design and mathematics. It is defined as the process of creating a mathematical portrayal of a 3D structure using specialized software. This representation of a structure is called a 3D model, which is the best way to visualize the real product.

- ✓ It has redefined what all can be developed in a stipulated amount of time, overall enhancing the design process.
- ✓ The new developments in product modeling have helped in the resolution of all the limitations of outdated processes.
- ✓ Increased functionality and productivity across design teams.

A career in product design is a great choice. The demand for product designers is high. If he or she works hard and has the right skills, a product designer can make a lot of money.

CONCLUSION : The lecture was of great success. It helps students to know about something new and prepare themselves for something innovative & new. The lecture came to an end of thanks by the professor

Sample Feedback Responses from the participants.

The objective of the trends in technology was achieved. The overall session discussion benefitted the Students. This Awareness of trends in technology would help the participants to Product Design Development and Modeling in an effective way and also it would help them to do their implementation in research work.

SUB: Guest Lecture on 5G Communication networks

It is informed that a **Guest Lecture on 5G Communication networks** be arranged by the Department of Electronics and Communication Engineering on 10.10.2022 for the academic year 2022-2023. Heads of the departments are requested to inform their students about the **Guest Lecture on 5G Communication networks** and motivate them to attend the class. HODs are also requested to nominate one faculty member to co-ordinate the same.

MOBILE APPLICATION DEVELOPMENT USING ANDROID STUDIO

Use the Android software development kit (SDK) to develop apps that take advantage of the Android operating system and UI. The SDK includes a comprehensive set of development tools including a debugger, software libraries of prewritten code, a device emulator, documentation, sample code, and tutorials. Use these tools to create apps that look great and take advantage of the hardware capabilities available on each device. To develop apps using the SDK, use the Java programming language for developing the app and Extensible Markup Language (XML) files for describing data resources. By writing the code in Java and creating a single app binary, you will have an app that can run on both phone and tablet form factors. You can declare your UI in lightweight sets of XML resources, one set for parts of the UI that are common to all form factors, and other sets for features specific to phones or tablets. At runtime, Android applies the correct resource sets based on its screen size, density, locale, and so on. To help you develop your apps efficiently, Google offers a full Java Integrated Development Environment (IDE) called Android Studio, with advanced features for developing, debugging, and packaging Android apps. Using Android Studio, you can develop on any available Android device, or create virtual devices that emulate any hardware configuration. Android provides a rich development architecture. You don't need to know much about the components of this architecture, but it is useful to know what is available in the system for your app to use. The following diagram shows the major components of the Android stack — the operating system and development architecture.

Designated as a Deemed to be University
under Section 3 of the UGC Act, 1956
Pursuing the Frontiers of Knowledge

Tamil Nadu - 605 006

The challenges of Android app development

- Building for a multi-screen world
- Getting performance right
- Keeping your code and your users secure
- Remaining compatible with older platform versions

COURSE OBJECTIVE

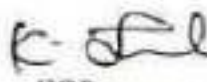

- Brand Awareness
- Increase Sales
- Improve Loyalty
- Stay Top of Mind
- Collect Important Data
- Reach More People
- Improve efficiency
- Improve productivity
- Saving and utilization.

Outcomes

This course will cover a quick introduction to setting up Flutter SDK, Android Studio IDE, and Android Emulator locally on your own machine.

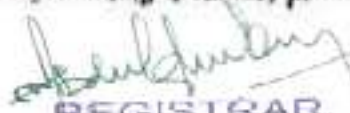

However, setting up your own local environment is not required to follow exercises in this course. You should be able to run Flutter Apps right here on the Educative platform.

- You'll start from building a Hello World app with Flutter while learning the fundamentals of Flutter widgets.
- You'll learn about layouts by building a contact profile page for Android device's address book.

intuitive programming languages ever! Python is extremely simple to learn, yet very powerful! That is why so many big players like Google, Yahoo, Dropbox and even NASA are using it!

What makes python unique?

Python is among very few languages with extremely low syntactic overhead giving it tremendous expressive powers. Many other features which includes overlapping feature set, like generator expressions, optimal performance of iterations, meta classes to increase class customization etc... Of course, an open source (FREE).

COURSE OUTLINE

Example

```
print("Hello, World!")
```

PYTHON DATA TYPES:

1. Built-in Data Types
2. Getting the Data Type
3. Setting the Data Type
4. Setting the Specific Data Type

EVENT ORGANIZED

The Guest speaker Mr.R.Palaniappan, Managing Director, and Miss.Abinaya, Programmer, Infosystem, Thanjavur, was heartily welcomed by Dr.C.Rajinikanth, Principal and Mrs.K.Jayanthi Head of the Department, CSI.

Mr.R.Palaniappan delivered the lecture focused on what are Artificial Intelligence? and Examples of Artificial Intelligence, Applications of embedded system and their classifications.

Miss.Abinaya spoke about the difference between Machine Learning and Deep Learning. Deep learning is a branch of Machine Learning and its applications. Further she spoke about the implementation of algorithms. She focused on Python and R language used for building Machine Learning Applications. She has shown example of Python code and explained it.

Science and Technology (PRIST)
Thangavar - 613 403, TAMIL NADU

He interacted with students by asking questions about Artificial Intelligence and its applications. Then he explained the differences between Artificial Intelligence and Machine Learning, the two hot buzz words in the current market and why Machine Learning is required.

As per the feedback received from the participants it was a very good learning experience, the lecture helped them in understanding the basics of Artificial Intelligence and how to apply the concepts learned in their curriculum to do projects.

The challenges of Android app development

- Building for a multi-version world
- Getting performance right
- Keeping your code and your users secure
- Remaining compatible with older platform versions

COURSE OBJECTIVE

- Brand Awareness
- Increase Sales
- Improve Loyalty
- Stay Top of Mind
- Collect Important Data
- Reach More People
- Improve efficiency
- Improve productivity
- Saving and utilization.

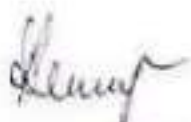

Outcomes

This course will cover a quick introduction to setting up Flutter SDK, Android Studio IDE, and Android Emulator locally on your own machine.

However, setting up your own local environment is not required to follow exercises in this course. You should be able to run Flutter Apps right here on the Educative platform.

- You'll start from building a Hello World app with Flutter while learning the fundamentals of Flutter widgets.
- You'll learn about layouts by building a contact profile page for Android device's address book.
- You'll understand styling apps using Flutter themes.
- You'll build a Movie Listing App using TheMovieDB REST API.

One of the most popular choices for graduates is to appear for various entrance exams after graduation in India whether competitive or government exams. These entrance exams provide a platform for students to kickstart their professional journey. However, with numerous options available, students often find it challenging to choose the right one for them.

The blog will cover the details of each exam, such as eligibility criteria, exam pattern, syllabus, and career prospects. It will also provide tips on how to prepare for the exams.

GUEST LECTURE ON ENERGY AUDIT

What Is an Energy Audit?

An energy audit is completed at a residential or commercial building to determine its energy efficiency. Simply put, energy efficiency means using less energy to do the same job.

The audit will provide you with a complete electricity consumption and energy efficiency assessment. You can obtain important information regarding your energy usage and Energy Star rating from the audit report.

With this information, you can identify and correct any energy usage issues to cut electricity costs. It's advisable to always undertake an energy audit before implementing a renewable energy system.

Who Conducts an Energy Audit?

A registered energy advisor or energy auditor will conduct a home energy audit or business energy audit. In addition, energy auditors are responsible for completing energy efficiency assessments of commercial and non-commercial buildings.

What Is Done During an Energy Audit?

There are three parts to an energy audit: evaluation, testing, and efficiency recommendations.

Once the audit is complete, the auditor will provide you with a report outlining energy consumption, a final energy grading, and home improvement suggestions to cut energy costs on energy bills.

BREAST CANCER AND CERVICAL CANCER AWARENESS PROGRAMME

Introduction

The posters provide awareness among students, regarding the types of cancer, early symptoms, diagnostic methods and preventive methods, and motivate them to avoid habits that increase the risk of cancer. The importance of cancer awareness has been emphasized as a means of ensuring behavior that facilitates early detection, whereas the absence of cancer awareness has been seen as a detriment to this end. Delay in health-seeking is also attributed to factors such as illiteracy, financial constraints, as well as myths and superstitions along with lack of awareness and this go hand-in-hand, most of the time. Screening is an important preventive measure in cancer control. Even though the national programme in India has a screening component, it is yet to take root in most part of the country. At present, most of the screening tests are available at higher centers only.

OBJECTIVES:

- Create cancer awareness and remove the stigma and fear attached.
- Help people recognize early signs and symptoms of cancer, thus enabling them to seek at an early stage.
- Educate students about the key risk factors, since more than 30% of cancer cases could be prevented by modifying lifestyle or avoiding the risk factor.
- Inform women about mammograms, clinical breast exam and breast self-exam.
- Inform students about the importance of regular screening and check-ups.

DEPARTMENT OF EDUCATION

Safe Internet Habits (Awareness program)

About the Department

The School of Education was established in the year 2008 in our esteemed institution with experienced and efficient faculty members. Since School of Education plays a vital role in all branches of education, all faculty members of our department put all possible efforts to make the future teachers very efficient and excellent in all walks of their career. We are following a wonderful system to achieve this goal as per the advice and guidance from our Chairman, Vice-Chancellor, Registrar, Dean and Managers. Now there are twenty four faculty members and two non-teaching staff in our department. Ten faculties has been awarded Ph.D., and two faculties are pursuing Ph.D. Also the Department of Education acts as the Local Examination Cell and the staff members are ardently working for the smooth functioning of the Department activities.

Our department believes in activity based teaching and students are enhanced by us to improve their language skills. The art of teaching and learning process will lead the students to practice English by constant speaking. Students are being given practice for their progress in career advancement. Our department works tirelessly for PRIST University results and also for professional progression. Training & Placement course and literary club activities are rendered in our university to make the students admirable.

About the Program:

- One day program on 12/07/2021
- This is an awareness program. Most people store a lot of personal information on their computers. If you don't protect your computer properly when you're online, it's possible that personal details could be stolen or deleted without your knowledge. Your computer can be attacked in a number of ways over the internet.

Objectives of the Program:

- Never post or trade personal pictures. Never reveal personal information, such as address, phone number, or school name or location. Use only a screen name and don't share passwords (other than with parents). Never agree to get together in person with anyone met online without parent approval and/or supervision.
- Regular physical activity is proven to help prevent and manage non communicable diseases such as heart disease, stroke, diabetes and several cancers. It also helps prevent hypertension, maintain healthy body weight and can improve mental health, quality of life and well-being.

Benefits of this Program:

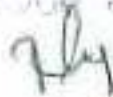

- Avoiding legal Fines and Penalties.
- Maintaining Employee and Customer Trust.
- Safeguarding Business Operations.
- Better cyber security posture.
- Protecting organizations against paying a ransom.
- Staying ahead of the competition.

DEPARTMENT OF EDUCATION

SECURITY MANAGEMENT TRAINING AND COMPLIANCE TRAINING
(Awareness program of trends in technology)

About the Department

The School of Education was established in the year 2008 in our esteemed institution with experienced and efficient faculty members. Since School of Education plays a vital role in all branches of education, all faculty members of our department put all possible efforts to make the future teachers very efficient and excellent in all walks of their career. We are following a wonderful system to achieve this goal as per the advice and guidance from our Chairman, Vice-Chancellor, Registrar, Dean and Managers. Now there are twenty-four faculty members and two non-teaching staff in our department. Ten faculties have been awarded Ph.D., and two faculties are pursuing Ph.D. Also the Department of Education acts as the Local Examination Cell and the staff members are untiringly working for the smooth functioning of the Department activities.

Our department believes in activity-based teaching and students are enhanced by us to improve their language skills. The act of teaching and learning process will lead the students to practice English by constant speaking. Students are being given practice for their progress in career advancement. Our department works tirelessly for PRIST University results and also for professional progression. Training & Placement course and literary club activities are rendered in our university to make the students adorable.

About the Programme

- One Day Program on 21-12-2022
- Security Compliance Management is an ongoing process of defining security policies, auditing compliance in line with these policies, and ensuring that compliance violations are resolved.

Objectives of the Program:

- Security management is focused on loss-prevention, and can include: the identification of, and protection against, hazards. The recruitment or provision of armed response, bodyguard, and armored delivery services. The implementation of IT security.
- This global template organizes key enforcement and regulatory issues into five essential compliance program elements: leadership, risk assessment, standards and controls, training and communication, and oversight.

Benefits of this Program:

Security and compliance serve distinct purposes in risk management. Security is related to internal safeguards, while compliance is about meeting external standards. To improve your organization's security posture, you should understand the differences as well as how compliance and security work together.

Security compliance managers develop and oversee an organization's security policies and procedures in accordance with industry regulations, standards, and laws. It is their responsibility to ensure that the organization meets all of the security requirements to prevent cyberattacks and data breaches.

PROGRAMME TITLE: SECURITY MANAGEMENT TRAINING AND COMPLIANCE TRAINING

(Awareness programme of trends in technology)

REPORT OF THE PROGRAM

Security management training and compliance training Life Skill Development Program was organized by our Department of Education on 23/12/2022 at Seminar Hall in Prist Block. The program was started at around 10.00 Am. With Tamil Thai Vazhhu and Vendhar Pa sung by our B.Ed students. The purpose of the program students must be having some valuable quality to improve their life skill. Dr.R.Gunasekaran Dean of School of Education has delivered Welcome Address. The Resource person Dr.K.Mathuswamy, Principal of Annai Collage Of Education, Kumbakonam, gave a wonderful lecture with Power point presentation and our Hon'ble Vice chancellor Dr. Christy, and Dean School of Education Dr. R. Gunasekaran gave a very impressive motivational speech, and gave some technical key notes to the students. The program ended with Vote of Thanks given by Mr.T.Selvaraj, Assitant Professor of School of Education. Students making the program grand success.

A REPORT ON THE SEMINAR

Solar cell Application and Trans Skills and Leadership

Department of Physics, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized a one-day seminar on "Solar cell Application and Trans" on April 25, 2023 in Seminar Hall-I. The seminar focused on guidance in Communicating effectively in groups.

The dignitaries on the dais were **Dr. L. CHINNAPPA**, Dean, School of Arts and Science, **Dr. M. SIVANANTHAM**, **Dr. S. SUBASHCHANDRABOSE**, **Dr. V. VIDHYA**, **DR. K. VINOTH**, **DR. S. SNEGA**, **DRC. THENMOZHI**, Assistant Professor Ponnaiyah Ramajayam Institute of Science and Technology

The programme started at 10:00 am with the welcome address by **DR. S. SUBASHCHANDRABOSE**, Department of Physics. **Dr. L. CHINNAPPA**, Dean, School of Arts and Science delivered an Inaugural address about the seminar. **DR. V. VIDHYA**, PRIST University delivered the Guest introduction about the conference.

DRC. THENMOZHI, Assistant Professor, gave lecture on the Guidance about Solar cell Application and Trans. The development of solar cells began with the invention of single crystal silicon solar cells in 1954 at Bell Labs. Thereafter, research continued to make progress, and during the era spanning the latter half of the 1950s through the beginning of the 1960s, this technology began to be utilized in high value added applications such as the power supply for a man-made satellite. After the seminar he interacted with the students and clarified their doubts. Finally, **DR. S. SNEGA**, Assistant Professor, Department of Physics delivered a note of thanks.

A REPORT ON THE SEMINAR

Topic: The Arts and Science of Relationships: Soft Human Education

Department of Physics, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized a one-day seminar on "The Arts and Science of Relationships: Soft Human Education" on February 15, 2023 in Seminar Hall-I. The seminar focused on guidance in Communicating effectively in groups. The dignitaries on the dais were Dr. L. CHINNAPPA, Ph.D., Dean, School of Arts and Science, Prof. K. Sathya, Assistant Professor, Department of Commerce, Dr. DR. K. SARITHA, Professor and Scientist, DR. C. YOGAMBAL, DR. M. SIVANANTHAM, DR. S. SUBASHCHANDRABOSE, Assistant Professor, Ponnaiyah Ramajayam Institute of Science and Technology. The programme started at 11:00 am with the DR. S. SUBASHCHANDRABOSE, Department of Physics. Dr. L. CHINNAPPA, Dean, School of Arts and Science delivered an Inaugural address about the seminar. DR. V. VIDHYA, PRIST University delivered the Guest introduction about the conference.

Prof. S. Rasakumar, Assistant Professor, gave lecture on the Embark on a transformative journey with The Arts & Science of Relationships: Human Needs course. Explore the intricate forces shaping human behavior and relationships through psychology, sociology, and anthropology. Enhance self-awareness, communication finesse, and connections with others. Whether you're aiming for professional growth or just curious, invaluable insights for a more fulfilling life. Discover the Strategies and Skills Learning and Development System (SSLD) - a versatile toolkit for everyday and specialized fields like social work and healthcare. Gain wisdom from real-world relationship cases, unlock the SSLD assessment framework, and develop core relationship management skills. Whether for personal or professional reasons, equips you to navigate relationships confidently and skillfully. She gave detailed list of websites for notes and library resources. After the seminar he interacted with the students and clarified their doubts. Finally, MR. K. SWAMINATHAN, Assistant Professor, Department of Physics delivered a vote of thanks.

A REPORT ON THE SEMINAR 28.09.2022

Topic: "Green Energy and Renewable Energy"

Department of Physics, Ponnaiyah Ramajayam Institute of Science & Technology (PRIST), organized a one-day seminar on "Green Energy and Renewable Energy" on September 28, 2022 in Seminar Hall-I. The seminar focused on Professional skills development.

The dignitaries on the dais were Dr. L. CHINNAPPA, Dean, School of Arts and Science, Dr. S. SUBASHCHANDRABOSE, Professor, Department of Physics, Dr. M. SIVANANTHAM, Associate Professor and Scientist, Dr. V. VIDHYA, Department of Physics, Dr. S. JAGADESAN, Dr. N. NISHA BANU, Dr. S. SNEGA, Dr. K. VINOTH, Assistant Professor, Ponnaiyah Ramajayam Institute of Science and Technology. The programme started at 11:00 am with the welcome address by Dr. K. VINOTH, Department of Physics. Dr. L. CHINNAPPA, Dean, School of Arts and Science delivered an Inaugural address about the seminar. Mr. K. SWAMINATHAN, PRIST University delivered the Felicitation about the seminar.

Dr. S. SUBASHCHANDRABOSE, Assistant Professor, gave lecture on "Green Energy and Renewable Energy". The terms 'green energy' and 'renewable energy' are often used interchangeably, but there is one essential (and sometimes confusing) difference between them. While most green energy sources are also renewable, not all renewable energy sources are considered entirely green. Renewable energy comes from sources that are constantly and naturally renewed (hence the name), such as wind power and solar power. Renewable energy is also often called sustainable energy. After the seminar he interacted with the students and clarified their doubts. Finally, Dr. S. JAGADESAN, Assistant Professor, Department of Physics delivered a vote of thanks.

Department of mathematics conducted OPTICAL CHARACTER
RECOGNITION SYSTEM (OCR) on 09.02.2023 to attain the following objectives

Optical character recognition (OCR) is used to turn scanned images and other visuals into
text.

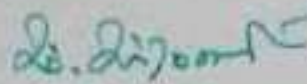

Indexing print material for search engines.

Automating data entry, extraction and processing.

This programme started with a welcome address by Dr.S.Subramanian, Head of the Department
of Mathematics. Dr.L.Chinnappa, Dean of school of arts and science gave special address.
Dr.S.Subramanian, Head of the Department of Mathematics gave the Guest Introduction.
Dr. Lakshmi priya gave a lecture on Optical Character Recognition System (Ocr)and how its
working on our real life. The function ended with a vote of thanks by Dr.D.R.Kirubakaran
Assistant professor in the department of mathematics.

DEPARTMENT OF MATHEMATICS

REPORT ON HEALTH AND FITNESS

Department of mathematics conducted CYBER SECURITY on 06.02.2023
to attain the following objectives

Ensure secure storage, control access and prevent unauthorized processing, transfer, or deletion of data.

To build a safe cyber environment in the country, develop appropriate trust and confidence in I.T. systems and cyberspace transactions, and to increase I.T. adoption in all sectors of the economy.

This programme started with a welcome address by Dr.S.Subramanian, Head of the Department of Mathematics, Dr.L.Chinnappa, Dean of school of arts and science gave special address. Dr.S.Subramanian, Head of the Department of Mathematics gave the Guest Introduction. Dr. Lakshmi priya gave a lecture on Cyber Security and how we secure our data's in our life. The function ended with a vote of thanks by Dr.D.R.Kirubakaran Assistant professor in the department of mathematics.
