INDUCTION PROGRAMME

This is a mandatory 2 week programme to be conducted as soon as the students enter the institution.Normal classes start only after the induction program is over.

The induction programme has been introduced by AICTE with the following objective:

“Engineering colleges were established to train graduates well in the branch/department of admission,have a holistic outlook, and have a desire to work for national needs and beyond. The graduatingstudent must have knowledge and skills in the area of his/her study. However, he/she must also havebroad understanding of society and relationships. Character needs to be nurtured as an essentialquality by which he/she would understand and fulfill his/her responsibility as an engineer, a citizen anda human being.Besidestheabove,severalmeta-skillsand underlyingvaluesare needed.”

“One will have to work closely with the newly joined students in making them feel comfortable, allowthem to explore their academic interests and activities, reduce competition and make them work forexcellence,promotebondingwithinthem,build relationsbetween teachers and students, giveabroaderviewoflife,andbuildcharacter. “

Hence,thepurposeofthisprogrammeistomakethestudentsfeelcomfortableintheirnewenvironment, openthemup,setahealthy daily routine,createbondinginthe batchas well asbetween faculty and students, develop awareness, sensitivity and understanding of the self, peoplearoundthem,society atlarge,andnature.

The followingare the activities underthe induction programin whichthe studentwould befullyengaged throughouttheday fortheentiredurationoftheprogram.

(i) PhysicalActivity

Thiswouldinvolveadailyroutineofphysicalactivitywithgamesandsports,yoga,gardening,etc.

(ii) CreativeArts

Every studentwouldchooseoneskillrelated totheartswhethervisualartsorperformingarts.Examples are painting, sculpture, pottery, music, dance etc. The student would pursue it everyday forthe duration of the program. These would allow for creative expression. It would develop a sense ofaesthetics and alsoenhancecreativitywhichwould,hopefully,growintoengineeringdesignlater.

(iii) UniversalHumanValues

This is the anchoring activity of the Induction Programme. It gets the student to explore oneself andallows one to experience the joy oflearning, stand up to peer pressure, take decisions with courage,beaware ofrelationships withcolleagues and supportingstay in the hostel anddepartment,besensitive to others, etc. A module in Universal Human Values provides the base. Methodology ofteaching this content is extremely important. It must not be through do's and dont's, but get students toexplore and think by engaging them in a dialogue. It is best taught through group discussions and reallifeactivitiesratherthanlecturing.

Discussions wouldbe conducted insmallgroups ofabout20studentswith afaculty mentoreach.Itwouldbeeffectivethatthefacultymentorassignedisalsothefacultyadvisorforthestudent forthefulldurationoftheUG programme.

(iv) LiteraryActivity

Literary activity would encompass reading, writing and possibly, debating, enacting aplay etc.

(v) ProficiencyModules

(viii) FamiliarizationtoDept./Branch&Innovations

They should be toldaboutwhat gettinginto a branch or department means whatrole it plays insociety,through itstechnology.They should also be shown the laboratories,workshops & otherfacilities.

(ix) DepartmentSpecificActivities

Aboutaweekcanbespentinintroducingactivities(games,quizzes,socialinteractions,smallexperiments,des ignthinkingetc.)thatarerelevanttotheparticularbranchofEngineering/Technology/Architecture that can serve as a motivation and kindle interest in buildingthings (become a maker) in that particular field. This can be conducted in the form of a workshop. Forexample, CSE and IT students may be introduced to activities that kindle computational thinking, andget them to build simple games. ECE students may be introduced to building simple circuits as anextension of their knowledge in Science, and so on. Students may be asked to build stuff using theirknowledgeofscience.

Induction Programme is totally an activity based programme and therefore there shall be notests/assessmentsduringthisprogramme.
